

SURGICAL GOWN

Ref: Europa

Fabric's technical features

Fabric	Fanotex (100% Europe Fabric)
Warp	Polyester microfiber yarns with carbon filaments
Weft	Textured polyester multifilaments
Composition	99% polyester, 1% Carbon
Weight	125 g/m ²

Fabric technical properties :

- Resistant to penetration of liquids and fluids
- Barrier to particles and bacteria.
- Permanent anti-static properties
- Non linting yarns
- High durability up to 75 washing and sterilization cycles
- Easy care
- Accredited quality guaranteed

Gown's benefits:

- Ultralight
- Breathable
- Resistant
- Comfortable
- Reinforced seams
- Linting free seam threads

Features:

- Knit collar in different colours to identify garment size
- Adjustable collar with push buttons
- Seamless wrist cuffs
- Waist belt tapes
- Seamless front side

UNE EN 13795	Meeting all quality requirements for surgical areas
EN 29073-3	Dry tensile strength
EN 1149-3	Static dissipation
EN 31092	Low resistance to steam (comfort)
EN 11737-1	Microbially clean
ISO 22612	Resistance to microbial penetration
ISO 9073-10	Particle linting
ISO 13938-1	Dry burst resistance
ISO 10993	Cytotoxicity

Sanitary licence
n° 5765-PS

agencia española de
medicamentos y
productos sanitarios

New textile technology with accredited quality guaranteed
